Dir Sirs,

Important Notice

Paint of Piston Pumps A, A3H, AS/ASR, YSD

■ Notice of Paint Change

We would advised you that it has been in a great demand since the introduction of Yuken piston pumps into the market, we have decided that the surface treatment is switched from standard color painting to the phosphate coating as following reasons:-

■ Purpose of the change

Commencing with the PRTR system *Remarks1, the commitment to environmental protection has been strongly requested recently. In the painting work, have an affect on environment and human body profoundly and the reduction for the usage of painting is one of the major challenges that we faces. Under the circumstances, to reduce the negative impact on environment and human body, we decided to switch off the current painting method and use the Phosphate coating in place of current painting.

Also, there is no update in the model number and the design number remains the same.

Remarks 1) PRTR(Pollutant Release and Transfer Register). Systems to collect and disseminate information on environmental releases and transfers of toxic chemicals from industrial and other facilities that promote the improvement and also to prevent interference .

■ Applicable Products

The change will apply to the all Yuken piston pumps as follows:-

- A Series Variable Piston Pumps
- A3H Series Variable Displacement Piston Pumps
- AS/ASR Series AC Servo Motor Driven Pumps
- IH Servo Drive Pack

(It is applied to the single spare parts sale of pilot valve of pump.)

■ Switching Time (Shift of Production)

Description	Model Numbers	Switching Time
A3H Series Variable Displacement Piston Pumps	A3H	From March, 2014 Production
A Series Variable Piston Pumps	A* 04/00 Control	From May, 2014 Production
A-E/EH Series Variable Piston Pumps	A* 01/02/03/04EH/04E 05/06/07/09 Control	From June, 2014 Production
AS/ASR Series AC Servo Motor Driven Pumps IH Servo Drive Pack	AS/ASR YSD	From June, 2014 Production

(Upon availability of production units from above mentioned period, customers may expect to receive the either previous painted items or new phosphate coating items until the previous inventory is depleted.)
