

## Release of New Product catalog

We are happy to announce the release of our new product catalog. It is a compendium of products that we think are useful to Indian customers not simply the indigenous product line. Yuken India Limited believes firmly that it is a solution provider and to that extent is committed to leverage the strength of its global footprint.

**The new catalog and the data contained therein overrides all previous versions.** We are thankful to our many customers that have highlighted some

misprints and mistakes in past catalogs. The same has been updated along with the addition of various proven new product lines. Needless to say, any new updates/corrections will always be first made on the soft versions available on the website before implementation in the print edition

We thank you for your patronage and hope you will find the new edition helpful. Please contact our Sales Teams or Distributors or Marketing offices for the new copies.
